

# Only MMG leads you in all the right directions

**soft ferrites**  
**laminations**  
**magnets**  
**iron powder**

## A worldwide leader in magnetics

MMG is the world's most diversified supplier of magnetic materials and components, with more than 200 years of combined manufacturing experience. Drawing upon a global network of ISO-certified facilities, application engineering support and a comprehensive range of cost-effective products, MMG can deliver magnetic technology solutions for a wide range of markets, including telecom, power supply design, automotive, military, medical and consumer products. For breadth of line, superior technical performance and customer service, all signs point to MMG.

**For more information on our comprehensive range of magnetic materials, contact MMG:**
