**DECLARATION OF COMPLIANCE REGARDING THE
RESTRICTION OF HAZARDOUS SUBSTANCES (RoHS)**

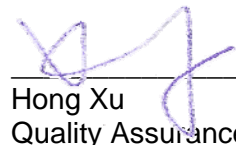

The European Union Directives 2002/95/EC and 2003/11/EC restrict the occurrence of specific hazardous substances used in the manufacturing of electrical and electronic equipment to the following levels:

- Lead (Pb) < 0.1%
- Mercury (Hg) < 0.1%
- Cadmium (Cd) < 0.01%
- Hexavalent Chromium (Cr_{VI}) < 0.1%
- Polybrominated Biphenyls (PBB) < 0.1%
- Polybrominated Diphenyl Esters (PBE) < 0.1%

MMG Canada Limited warrants that our soft ferrite cores composed of either manganese-zinc ferrite as defined by CAS number 12645-49-7 or nickel-zinc ferrite as defined by CAS number 12645-50-0 are currently compliant with European Union Directives 2002/95/EC and 2003/11/EC on the restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment.

Please contact your customer service representative if additional information is required.
